Kevin,

Do you think we should even meet with BP if EPA is not conceptually willing to discuss a number other than 8.75 ppt? If the answer is no, then maybe you all should just email them that it is unnecessary as EPA does not agree to a different number.

Bruno

We can go with the 8.75 number, both Tinka and Susan are ok with that. We should not say anything in the permit about a voluntary limit but if BP wants to say they voluntarily agreed we have no problem with that. Looks like we can go ahead with the meeting.
